#### ManpowerGroup Reports 3rd Quarter 2016 Results

**MILWAUKEE**, **October 21**, **2016** -- ManpowerGroup (NYSE: MAN) today reported that net earnings per diluted share for the three months ended September 30, 2016 were \$1.87 compared to \$1.61 in the prior year period. Net earnings in the quarter were \$129.2 million compared to \$123.9 million a year earlier. Revenues for the third quarter were \$5.1 billion, an increase of 2% from the year earlier period.

Financial results in the quarter were impacted by the stronger U.S. dollar relative to several foreign currencies compared to the prior year period. On a constant currency basis, revenues increased 4% and net earnings per diluted share increased 18%. Earnings per share in the quarter were negatively impacted 3 cents by changes in foreign currencies compared to the prior year.

Jonas Prising, ManpowerGroup Chairman & CEO, said, "We executed well in the third quarter despite continued soft and uneven market conditions globally. This slow growth environment results in our services and solutions becoming increasingly more attractive to companies that need operational and strategic flexibility. We have seen this translate into continued strong growth in our permanent recruitment and market leading workforce solutions offerings. As we look to the fourth quarter we are well placed to seize further opportunities across all our brands.

"We are anticipating the fourth quarter of 2016 diluted net earnings per share to be in the range of \$1.65 to \$1.73, which includes an estimated unfavorable currency impact of 2 cents," Prising stated.

Earnings per diluted share for the nine months ended September 30, 2016 were \$4.42 compared to \$3.75 per diluted share in 2015. Net earnings were \$316.3 million compared to \$295.3 million in the prior year. Revenues for the nine-month period were \$14.7 billion, an increase of 2% from the prior year in reported U.S. dollars or an increase of 4% in constant currency. Foreign currency exchange rates had an unfavorable impact of 8 cents per share for the nine-month period in 2016. On a constant currency basis, net earnings per diluted share were up 20% for the nine

month period.
