Milwaukee, WI, October 27, 1999 - Manpower Inc. (NYSE: MAN) announced revenues for the third quarter ended September 30, 1999, of \$2.6 billion, an increase of 10% over the \$2.4 billion reported for the same quarter a year ago. Systemwide Sales for the quarter increased 8% to \$3.1 billion from \$2.8 billion. Net earnings for the quarter increased 14% to \$48.9 million, or \$0.63 per diluted share, compared to \$42.9 million, or \$0.53 per diluted share, for the same period in 1998, according to Jeffrey A. Joerres, President and Chief Executive Officer.

Joerres commented, "We did particularly well in mainland Europe, where our profit growth including France was up 32% on a constant currency basis. France by itself was even stronger than that, posting a 47% increase in local currency and setting a record quarter for the operation. We expect business conditions in Europe for the fourth quarter to be good which should give us continued profit growth."

Systemwide Sales rose 9% to \$8.4 billion versus \$7.7 billion last year.
