

United States
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the quarterly period ended:

June 30, 2019

or

Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the transition period from: _____ to _____

Commission file number: 1-10686

MANPOWERGROUP INC.

(Exact name of registrant as specified in its charter)

Wisconsin

(State or other jurisdiction of incorporation)

39-1672779

(IRS Employer Identification No.)

100 Manpower Place

Milwaukee, Wisconsin

(Address of principal executive offices)

53212

(Zip Code)

Registrant's telephone number, including area code: **(414) 961-1000**

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol(s)</u>	<u>Name of each exchange on which registered</u>
Common Stock, \$.01 par value	MAN	New York Stock Exchange

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

<u>Class</u>	<u>Shares Outstanding at July 31, 2019</u>

Notes to Consolidated Financial Statements (Unaudited)
For the three and six months ended June 30, 2019 and 2018
(in millions, except share and per share data)

(1) Basis of Presentation and Accounting Policies

Basis of Presentation

Certain information and footnote disclosures normally included in the financial statements prepared in accordance with United States Generally Accepted Accounting Principles ("GAAP") have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission, although we believe that the disclosures are adequate to make the information presented not misleading. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements included in our 2018 Annual Report on Form 10-K.

The information furnished reflects all adjustments that, in the opinion of management, were necessary for a fair statement of the Consolidated Financial Statements for the periods presented. Such adjustments were of a normal recurring nature, unless otherwise disclosed.

Leases

We determine whether a contract is or contains a lease at contract inception. Right-of-use ("ROU") assets and long-term lease liabilities are presented as separate line items on our Consolidated Balance Sheets. Current operating lease liabilities are included in accrued expenses on our Consolidated Balance Sheets.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Lease liabilities are recognized at commencement date based on the present value of remaining lease payments over the lease term. As the rate implicit in the lease is not readily determinable in most of our leases, we use our incremental borrowing rate. We determine our incremental borrowing rate at the commencement date using our unsecured borrowing rate, adjusted for collateralization, lease term, economic environment, currency and other factors. ROU assets are recognized at commencement date at the value of the related lease liabilities, adjusted for any prepayments, lease incentives received, and initial direct costs incurred. Our lease terms include options to renew or not terminate the lease when it is reasonably certain that we will exercise that option.

Lease expenses for operating leases are recognized on a straight-line basis over the lease term and recorded in selling and administrative expenses on the Consolidated Statements of Operations.

Payroll Tax Credit

In April 2019, we sold a portion of our French payroll tax credits earned in 2018 for net proceeds of \$103.5 (€92.0). In April 2018, we sold substantially all of our French payroll tax credits earned in 2017 for net proceeds of \$234.5 (€190.9). We derecognized these receivables and the additional interest upon the sale date as the terms of the agreement are such that the transaction qualifies for sale treatment in accordance with the accounting guidance on the transfer and servicing of assets. The discount on the sale of these receivables was recorded in cost of services as a reduction of the payroll tax credits.

Goodwill Impairment

In accordance with the accounting guidance on goodwill and other intangible assets, we perform an annual impairment test of goodwill at our reporting unit level and indefinite-lived assets at our unit of account level during the third quarter, or more frequently if events or circumstances change that would more likely than not reduce the fair value of the reporting units below their carrying value. The most recent annual impairment test was performed during the third quarter of 2018.

For the second quarter of 2019, in connection with the preparation of our quarterly financial statements, we assessed the changes in circumstances that occurred during the quarter to determine if it was more likely than not that the fair value of any reporting unit was below its carrying amount.

We identified several factors related to our Germany reporting unit that led us to conclude that it was more likely than not that the fair value of the reporting unit was below its carrying amount. These factors included a further downward trend in the performance of the business due to current market conditions, a more cautious outlook for the business stemming from the impact

of changes to temporary staffing regulations in Germany, and the recording of a valuation allowance against our Germany deferred tax assets during the second quarter.

As we determined that it was more likely than not that the fair value of the Germany reporting unit was below its carrying amount, we performed an interim impairment test on this reporting unit as of June 30, 2019. As a result of our interim test, we recognized a non-cash impairment loss of \$60.2. The Germany reporting unit is included in the Northern Europe segment.

In performing our interim impairment test, we determined the fair value of the reporting unit by utilizing an income approach derived from a discounted cash flow methodology. The income approach is developed from management's forecasted cash flow data. Significant assumptions used in our interim goodwill impairment test included: expected revenue growth rates, operating unit profit margins, working capital levels, discount rate, and a terminal value multiple.

In addition, we recorded a goodwill impairment charge of \$3.8 related to our New Zealand operations as a result of not meeting profitability expectations.

Subsequent Events

On July 10, 2019, our joint venture in Greater China, ManpowerGroup Greater China Limited, became listed on the Main Board of the Stock Exchange of Hong Kong Limited through an initial public offering. Prior to the initial public offering, we owned a 51% controlling interest in the joint venture and consolidated the financial position and results of its operations into our Consolidated Financial Statements as part of our APME segment. As a result of the offering, in which ManpowerGroup Greater China Limited issued new shares representing 25% of the equity of the company, our ownership interest was diluted to 38.25%, subject to further dilution to 36.87% if the underwriters exercise their overallotment option in full. As a result, we will deconsolidate the joint venture as of the listing date and account for our remaining interest under the equity method of accounting and record our share of equity income or loss in interest and other (income) expenses, net in the Consolidated Statement of Operations.

We will finalize our accounting for this transaction during the third quarter of 2019. We have evaluated all other events and transactions occurring after the balance sheet date through our filing date and have accrued or disclosed any related accounting impacts, if appropriate.

(2) Recent Accounting Standards

Accounting Standards Effective as of January 1, 2019

In February 2016, the Financial Accounting Standards Board ("FASB") issued new accounting guidance on leases, ASU No. 2016-02, Leases (Topic 842), which we adopted on January 1, 2019. The new guidance requires that a lessee recognize ROU assets and lease liabilities on the balance sheet for leases with lease terms longer than 12 months. The recognition, measurement and presentation of lease expenses and cash flows depend on the classification by the lessee as a finance or operating lease. We determined that no cumulative effect adjustment to retained earnings was necessary upon adoption. As of the transition date, the ROU asset and total lease liability (current and long-term) were \$458.1 and \$458.7, respectively.

We elected the package of three practical expedients which lessened the transitional burden of implementing the new guidance. Accordingly, we did not reassess: 1) whether any expired or existing contracts are or contain leases; 2) the lease classification for any expired or existing leases; or 3) the initial direct costs for any existing leases. We have also elected the practical expedient to not separate lease and non-lease components. Lastly, we have elected to apply the short-term lease exception for all underlying asset classes.

In August 2017, the FASB issued new guidance on hedge accounting. The amendments in this guidance include the elimination of the concept of recognizing periodic hedge ineffectiveness for cash flow and net investment hedges, recognition and presentation of changes in the fair value of the hedging instrument, recognition and presentation of components excluded from an entity's hedge effectiveness assessment, addition of the ability to elect to perform subsequent effectiveness assessments qualitatively, and addition of new disclosure requirements. We adopted this guidance effective January 1, 2019. There was no impact of this adoption on our Consolidated Financial Statements. See Note 13 to the Consolidated Financial Statements for the modified disclosures.

In February 2018, the FASB issued new guidance on reporting comprehensive income. The new guidance allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the United States Tax

Cuts and Jobs Act of 2017 ("Tax Act"). The guidance was effective for us as of January 1, 2019. We elected not to adopt this optional reclassification.

In June 2018, the FASB issued new guidance on the accounting for share-based payment awards. The guidance makes the accounting for share-based payment awards issued to nonemployees largely consistent with the accounting for share-based payment awards issued to employees. We adopted this guidance effective January 1, 2019. There was no impact of this adoption on our Consolidated Financial Statements.

Recently Issued Accounting Standards

In June 2016, the FASB issued new accounting guidance on financial instruments. The new guidance requires application of an impairment model known as the current expected credit loss ("CECL") model to certain financial instruments. Using the CECL model, an entity recognizes an allowance for expected credit losses based on historical experience, current conditions, and forecasted information rather than the current methodology of delaying recognition of credit losses until it is probable loss has been incurred. The new guidance is effective for us in 2020. We do not expect the adoption of this guidance to have a material impact on our Consolidated Financial Statements.

In August 2018, the FASB issued new guidance on disclosures related to fair value measurements. The guidance is intended to improve the effectiveness of the notes to financial statements by facilitating clearer communication, and it includes multiple new, eliminated and modified disclosure requirements. The guidance is effective for us in 2020. The adoption of this guidance will have no impact on our Consolidated Financial Statements.

In August 2018, the FASB issued new guidance on the accounting for internal-use software. The guidance aligns the accounting for costs incurred to implement a cloud computing arrangement that is a service arrangement with the guidance on capitalizing costs associated with developing or obtaining internal-use software. The guidance is effective for us in 2020. We are assessing the impact of the adoption of this guidance on our Consolidated Financial Statements.

In August 2018, the FASB issued new guidance on disclosures related to defined benefit plans. The guidance amends the current disclosure requirements to add, remove and clarify disclosure requirements for defined benefit pension and other postretirement plans. The guidance is effective for us in 2021. The adoption of this guidance will have no impact on our Consolidated Financial Statements.

(3) Revenue Recognition

For certain client contracts where we recognize revenues over time, we recognize the amount that we have the right to invoice, which corresponds directly to the value provided to the client of our performance to date.

We do not disclose the amount of unsatisfied performance obligations for client contracts with an original expected length of one year or less and those client contracts for which we recognize revenues at the amount to which we have the right to invoice for services performed. We have other contracts with revenues expected to be recognized subsequent to June 30, 2019, related to remaining performance obligations, which are not material.

We record accounts receivable when our right to consideration becomes unconditional. Contract assets primarily relate to our rights to consideration for services provided that they are conditional on satisfaction of future performance obligations. We record contract liabilities (deferred revenue) when payments are made or due prior to the related performance obligations being satisfied. The current portion of our contract liabilities is included in accrued liabilities in our Consolidated Balance Sheets. We do not have any material contract assets or long-term contract liabilities.

Our deferred revenue was \$42.5 at June 30, 2019 and \$42.8 at December 31, 2018. The decrease is due to \$35.6 of revenues recognized related to amounts that were included in the December 31, 2018 balance, partially offset by payments or amounts due in advance of satisfying our performance obligations in the six months ended June 30, 2019.

In the following table, revenue is disaggregated by service types for each of our reportable segments. See Note 2 to the Consolidated Financial Statements in our 2018 Annual Report on Form10-K for descriptions of revenue service types.

(4) Share-Based Compensation Plans

During the three months ended June 30, 2019 and 2018, we recognized share-based compensation expense of \$8.3 and \$5.3, respectively, and \$12.9 and \$12.8 for the six months ended June 30, 2019 and 2018, respectively. The expense relates to stock options, deferred stock, restricted stock and performance share units. We recognize share-based compensation expense in selling and administrative expenses on a straight-line basis over the service period of each award. Consideration received from share-based awards was \$5.3 and \$4.0 for the six months ended June 30, 2019 and 2018, respectively.

(5) Acquisitions

On April 3, 2019, we acquired the remaining 51% controlling interest in our Swiss franchise (“Manpower Switzerland”) to obtain full ownership of the entity. Additionally, as part of the purchase agreement we acquired the remaining 20% interest in Experis AG. Manpower Switzerland provides contingent staffing services under our Manpower brand in the four main language regions in Switzerland. Both Manpower Switzerland and Experis AG are reported in our Southern Europe segment. The aggregate cash consideration paid was \$212.7 and was funded through cash on hand. Of the total consideration paid, \$58.3 was for the acquired interests and the remaining \$154.4 was for cash and cash equivalents. The amounts paid are subject to certain working capital and net debt adjustments based on the actual working capital and net debt existing on the acquisition date compared to target amounts. The acquisition of the remaining interest of Experis AG was accounted for as an equity transaction as we previously consolidated the entity.

Our investment in Manpower Switzerland prior to the acquisition was accounted for under the equity method of accounting and we recorded our share of equity income or loss in interest and other (income) expenses, net on the Consolidated Statements of Operations. The acquisition of the remaining controlling interest in Manpower Switzerland was accounted for as a business combination and the assets and liabilities of Manpower Switzerland were included in the June 30, 2019 Consolidated Balance

Sheets, and the results of its operations have been included in the Consolidated Statements of Operations subsequent to the acquisition date.

The aggregate of the consideration paid and the fair value of previously held equity interest totaled \$408.3, or \$90.8 net of cash acquired. In connection with the business combination, we recognized a one-time, non-cash gain on the disposition of our previously held equity interest in Manpower Switzerland of \$80.4, which is included within interest and other (income) expenses, net on the Consolidated Statements of Operations. Of the \$80.4, \$32.5 represented the reclassification of foreign currency translation adjustments related to the previously held equity interest, from accumulated other comprehensive income.

The assets and liabilities are included in the Consolidated Balance Sheet as of June 30, 2019 within our Southern Europe segment. The acquired assets and assumed liabilities include the following:

	April 3, 2019
Cash and cash equivalents	\$ 317.5
Accounts receivable	60.4
Prepaid expenses and other assets	31.4
Goodwill	31.2
Intangible assets subject to amortization, customer relationship	19.6
Intangible assets not subject to amortization, reacquired franchise rights	25.5
Property and equipment	0.4
Accounts payable	21.6
Employee compensation payable	2.5
Accrued liabilities	13.7
Accrued payroll taxes and insurance	7.5
Value added taxes payable	7.4
Other long-term liabilities	25.0
Total assets acquired and liabilities assumed	<u>\$ 408.3</u>

The amounts in the above table represent the preliminary allocation of purchase price and are subject to revision when valuations are finalized for intangible assets, which are expected in 2019. The customer relationship intangible asset is expected to be amortized over a 15 year useful life. The goodwill from the acquisition is not expected to be deductible for income tax purposes.

Manpower Switzerland contributed net revenues from services of \$111.0 since the acquisition. Our consolidated unaudited proforma historical net revenues from services, as if Manpower Switzerland had been acquired at the beginning of 2018, are estimated as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2019	2018	2019	2018
Net revenues from services	\$ 5,373.1	\$ 5,780.9	\$ 10,516.6	\$ 11,397.7

From time to time, we acquire and invest in companies throughout the world, including franchises. The total cash consideration paid for acquisitions excluding Manpower Switzerland and Experis AG, net of cash acquired, was \$17.7 for the six months ended June 30, 2019. This balance represents contingent consideration payments related to previous acquisitions, of which \$13.0 had been recognized as a liability at the acquisition date. For the six months ended June 30, 2018, the total cash consideration for acquisitions, net of cash acquired, was \$47.4, the majority of which took place in the Netherlands. This balance includes initial acquisition payments of \$8.2 and contingent consideration payments of \$39.2, of which \$15.1 had been recognized as a liability at the acquisition date.

(6) Restructuring Costs

We recorded net restructuring costs of \$41.4 and \$39.3 during the six months ended June 30, 2019 and June 30, 2018, respectively, in selling and administrative expenses, primarily related to severances and office closures and consolidations in multiple countries and territories. During the six months ended June 30, 2019, the costs paid, utilized or transferred out of our restructuring reserve was \$31.9. We expect a majority of the remaining \$25.0 reserve will be paid, utilized or transferred out by the end of 2019.

Changes in the restructuring reserve by reportable segment and Corporate are shown below.

	Americas(1)	Southern Europe(2)	Northern Europe	APME	Right Management	Corporate	Total
Balance, December 31, 2018	\$ 0.3	\$ 1.7	\$ 13.1	\$ —	\$ 0.4	\$ —	\$ 15.5
Severance costs	3.8	5.3	16.5	3.5	0.2	2.3	31.6
Office closure costs and other	1.3	0.1	2.2	0.9	4.5	0.8	9.8
Costs paid, utilized or transferred out(3)	(4.2)	(3.1)	(16.5)	(2.2)	(5.0)	(0.9)	(31.9)
Balance, June 30, 2019	\$ 1.2	\$ 4.0	\$ 15.3	\$ 2.2	\$ 0.1	\$ 2.2	\$ 25.0

- (1) Balances related to the United States were \$0.3 and \$0.9 as of December 31, 2018 and June 30, 2019, respectively.
- (2) Balances related to France were \$0.9 as of both December 31, 2018 and June 30, 2019. Balances related to Italy were \$0.5 and \$1.0 as of December 31, 2018 and June 30, 2019, respectively.
- (3) Restructuring reserve of \$7.1 was transferred to current operating lease liabilities during the six months ended June 30, 2019.

(7) Income Taxes

We recorded income tax expense at an effective rate of 36.7% for three months ended June 30, 2019, as compared to an effective rate of 27.5% for the three months ended June 30, 2018. The 2019 rate was unfavorably impacted by the transition of the French CICE subsidy, which was non-taxable, to new French subsidies in January 2019 that are taxable, the goodwill impairment related to our investments in Germany and New Zealand, which was nondeductible, and the recognition of a valuation allowance in Germany. These items were partially offset by the favorable impact of the gain from the acquisition of Manpower Switzerland, which was non-taxable. The 36.7% effective tax rate in the quarter was higher than the United States Federal statutory rate of 21% primarily due to the French business tax, restructuring costs recorded in the quarter, our overall mix of earnings, and the recognition of a valuation allowance in Germany. We recorded income tax expense at the effective rate of 38.6% for the six months ended June 30, 2019, as compared to an effective rate of 28.3% for the six months ended June 30, 2018. The 38.6% effective tax rate for the six months ended June 30, 2019 was higher than the United States Federal statutory rate of 21% primarily due to the French business tax, our overall mix of earnings, and the recognition of a valuation allowance in Germany.

As of June 30, 2019, we had gross unrecognized tax benefits related to various tax jurisdictions, including interest and penalties, of \$35.2 that would favorably impact the effective tax rate if recognized. As of December 31, 2018, we had gross unrecognized tax benefits related to various tax jurisdictions, including interest and penalties of \$34.2. We do not expect our unrecognized tax benefits to change significantly over the next 12 months.

We conduct business globally in various countries and territories. We are routinely audited by the tax authorities of the various tax jurisdictions in which we operate. Generally, the tax years that could be subject to examination are 2012 through 2019 for our major operations in France, Germany, Japan, the United Kingdom and the United States. As of June 30, 2019, we are subject to tax audits in Austria, Canada, Denmark, France, Germany and the United States. We believe that the resolution of these audits will not have a material impact on earnings.

(8) Net Earnings Per Share

The calculations of net earnings per share – basic and net earnings per share – diluted were as follows:

	3 Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Net earnings available to common shareholders	\$ 127.3	\$ 143.4	\$ 180.8	\$ 240.4
Weighted-average common shares outstanding (in millions)				
Weighted-average common shares outstanding - basic	60.0	65.7	60.3	65.8
Effect of dilutive securities - stock options	0.1	0.1	0.1	0.2
Effect of other share-based awards	0.3	0.3	0.3	0.4
Weighted-average common shares outstanding - diluted	60.4	66.1	60.7	66.4
Net earnings per share - basic	\$ 2.12	\$ 2.18	\$ 3.00	\$ 3.65
Net earnings per share - diluted	\$ 2.11	\$ 2.17	\$ 2.98	\$ 3.62

There were 0.4 million and 0.3 million share-based awards excluded from the calculation of net earnings per share – diluted for the three months ended June 30, 2019 and 2018, respectively, and the calculations of earnings per share – diluted for the six months ended June 30, 2019 and June 30, 2018 because their impact was anti-dilutive.

(9) Goodwill and Other Intangible Assets

We have goodwill, finite-lived intangible assets and indefinite-lived intangible assets as follows:

	June 30, 2019			December 31, 2018		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Goodwill(1)	\$ 1,262.4	\$ —	\$ 1,262.4	\$ 1,297.1	\$ —	\$ 1,297.1
Intangible assets:						
Finite-lived:						
Customer relationships	\$ 464.2	\$ 365.5	\$ 98.7	\$ 444.8	\$ 351.7	\$ 93.1
Other	18.4	17.1	1.3	18.5	16.0	2.5
	482.6	382.6	100.0	463.3	367.7	95.6
Indefinite-lived:						
Tradenames(2)	52.0	—	52.0	52.0	—	52.0
Reacquired franchise rights	124.3	—	124.3	98.7	—	98.7
	176.3	—	176.3	150.7	—	150.7
Total intangible assets	\$ 658.9	\$ 382.6	\$ 276.3	\$ 614.0	\$ 367.7	\$ 246.3

(1) Balances were net of accumulated impairment loss of \$577.4 and \$513.4 as of June 30, 2019 and December 31, 2018, respectively.

(2) Balances were net of accumulated impairment loss of \$139.5 as of both June 30, 2019 and December 31, 2018.

Total consolidated amortization expense related to intangible assets for the remainder of 2019 is expected to be \$15.1 and in each of the next five years as follows: 2020- \$25.4, 2021- \$14.7, 2022- \$11.1, 2023- \$9.0, 2024- \$7.7.

Changes in the carrying value of goodwill by reportable segment and Corporate were as follows:

	Americas(1)	Southern Europe(2)	Northern Europe(3)	APME(3)	Right Management	Corporate(4)	Total
Balance, December 31, 2018	\$ 519.9	\$ 112.2	\$ 435.4	\$ 102.0	\$ 62.1	\$ 65.5	\$ 1,297.1
Goodwill acquired	0.4	31.2	-	-	-	-	31.6
Currency and other impacts	1.7	(0.6)	(4.1)	0.7	-	-	(2.3)
Impairment charge	-	-	(60.2)	(3.8)	-	-	(64.0)
Balance, June 30, 2019	\$ 522.0	\$ 142.8	\$ 371.1	\$ 98.9	\$ 62.1	\$ 65.5	\$ 1,262.4

(1) Balances related to the United States were \$476.5 as of both December 31, 2018 and June 30, 2019.

(2) Balances related to France were \$68.9 and \$68.3 as of December 31, 2018 and June 30, 2019, respectively. Balances related to Italy were \$4.8 and \$4.7 as of December 31, 2018 and June 30, 2019, respectively.

(3) The impairment charges of \$60.2 and \$3.8 relate to our Germany and New Zealand reporting units, respectively, which were recorded during the second quarter of 2019. See Note 1 to the Consolidated Financial Statements for further information.

(4) The majority of the Corporate balance relates to goodwill attributable to our acquisition of Jefferson Wells (\$55.5) which is now part of the United States reporting unit. For purposes of monitoring our total assets by segment, we do not allocate the Corporate balance to the respective reportable segments as this is commensurate with how we operate our business. We do, however, include these balances within the appropriate reporting units for our goodwill impairment testing. See table below for the breakout of goodwill balances by reporting unit.

Goodwill balances by reporting unit were as follows:

	June 30, 2019	December 31, 2018
United States	\$ 532.0	\$ 532.0
Netherlands	111.1	112.0
United Kingdom	93.2	93.7
France	68.3	68.9
Germany	67.5	129.2
Right Management	62.1	62.1
Other reporting units	328.2	299.2
Total goodwill	<u>\$ 1,262.4</u>	<u>\$ 1,297.1</u>

(10) Retirement Plans

The components of the net periodic benefit cost (credit) for our plans were as follows:

	Defined Benefit Pension Plan			
	3 Months Ended June 30,		6 Months Ended June 30,	
	2019	2018	2019	2018
Service cost	\$ 4.3	\$ 2.8	\$ 6.8	\$ 5.6
Interest cost	3.2	2.9	6.3	5.9
Expected return on assets	(3.6)	(2.7)	(5.9)	(5.5)
Other	0.4	0.3	0.9	0.7
Total benefit cost	<u>\$ 4.3</u>	<u>\$ 3.3</u>	<u>\$ 8.1</u>	<u>\$ 6.7</u>

	Retiree Health Care Plan			
	3 Months Ended June 30,		6 Months Ended June 30,	
	2019	2018	2019	2018
Interest cost	\$ 0.2	\$ 0.1	\$ 0.3	\$ 0.2
Prior service credit	(0.2)	(0.2)	(0.4)	(0.4)
Total benefit credit	<u>\$ -</u>	<u>\$ (0.1)</u>	<u>\$ (0.1)</u>	<u>\$ (0.2)</u>

During the three and six months ended June 30, 2019, contributions made to our pension plans were \$2.9 and \$4.4, respectively, and contributions made to our retiree health care plan were \$0.3 and \$0.6, respectively. During 2019, we expect to make total contributions of approximately \$13.0 to our pension plans and to fund our retiree health care payments as incurred.

(11) Shareholders' Equity

The components of accumulated other comprehensive loss, net of tax, were as follows:

	June 30, 2019	December 31, 2018
Foreign currency translation	\$ (285.9)	\$ (223.2)
Reclassification of currency translation adjustment to income related to disposition of partially held equity interest (see Note 5)	32.5	-
Translation gain (loss) on derivative instruments, net of income taxes of \$(10.9) and \$(12.9), respectively	1.6	(4.7)
Translation loss on long-term intercompany loans	(130.4)	(137.2)
Defined benefit pension plans, net of income taxes of \$(23.0) and \$(23.2), respectively	(37.2)	(37.9)
Retiree health care plan, net of income taxes of \$1.9 and \$2.0 for 2019 and 2018, respectively	2.9	3.2
Accumulated other comprehensive loss	<u>\$ (416.5)</u>	<u>\$ (399.8)</u>

Noncontrolling Interests

Noncontrolling interests, reported in total shareholders' equity in our Consolidated Balance Sheets, represent amounts related to majority-owned subsidiaries in which we have a controlling financial interest. Net earnings attributable to these noncontrolling interests are recorded in interest and other (income) expenses, net in our Consolidated Statements of Operations. We recorded expenses of \$0.1 and \$1.0 for the three months ended June 30, 2019 and 2018, respectively, and \$1.1 and \$2.2 for the six months ended June 30, 2019 and June 30, 2018, respectively. The portion of earnings attributed to the noncontrolling interest for ManpowerGroup Greater China Limited is included in the above amounts. (See Note 1 to the Consolidated Financial Statements for further information on the subsequent deconsolidation of the entity.)

Dividends

On May 10, 2019 and May 4, 2018, the Board of Directors declared a semi-annual cash dividend of \$1.09 and \$1.01 per share, respectively. The 2019 dividends were paid on June 14, 2019 to shareholders of record on June 3, 2019. The 2018 dividends were paid on June 15, 2018 to shareholders of record on June 1, 2018.

Share Repurchases

In August 2019, the Board of Directors authorized the repurchase of 6.0 million shares of our common stock, with terms consistent with the previous authorizations. This authorization is in addition to the August 2018 and July 2016 Board authorizations to purchase 6.0 million shares of our common stock each. Share repurchases may be made from time to time through a variety of methods, including open market purchases, block transactions, privately negotiated transactions or similar facilities. During the first six months of 2019, we repurchased a total of 1.2 million shares at a cost of \$101.0 under the 2018 authorization. During the first six months of 2018, we repurchased 1.0 million shares at a cost of \$113.2 under the 2016 authorization. As of June 30, 2019, there were 1.9 million shares remaining authorized for repurchase under the 2018 authorization and no shares remaining authorized for repurchase under the 2016 authorization.

(12) Interest and Other (Income) Expenses, Net

Interest and other (income) expenses, net consisted of the following:

	3 Months Ended June 30,		6 Months Ended June 30,	
	2019	2018	2019	2018
Interest expense	\$ 11.2	\$ 13.3	\$ 21.4	\$ 26.9
Interest income	(1.1)	(1.4)	(2.6)	(2.6)
Foreign exchange (gain) loss	(0.5)	(0.1)	2.4	(0.2)
Miscellaneous (income) expense, net ⁽¹⁾	(79.8)	(1.3)	(79.5)	2.5
Interest and other (income) expenses, net	\$ (70.2)	\$ 10.5	\$ (58.3)	\$ 26.6

(1) Includes an \$80.4 gain related to our acquisition of the remaining controlling interest in Manpower Switzerland. See Note 5 to the Consolidated Financial Statements for further information.

(13) Derivative Financial Instruments and Fair Value Measurements

Derivative Financial Instruments

We are exposed to various market risks relating to our ongoing business operations. The primary market risks, which are managed using derivative instruments, are foreign currency exchange rate risk and interest rate risk. In certain circumstances, we enter into foreign currency forward exchange contracts ("forward contracts") and cross-currency swaps to reduce the effects of fluctuating foreign currency exchange rates on our cash flows denominated in foreign currencies. Our exposure to market risk for changes in interest rates relates primarily to our long-term debt obligations. We have historically managed interest rate risk through the use of a combination of fixed and variable rate borrowings.

The €400.0 (\$453.3) notes due September 2022 and the €500.0 (\$563.4) notes due June 2026 were designated as a hedge of our net investment in our foreign subsidiaries with a Euro-functional currency as of June 30, 2019. The gain or loss associated with foreign currency translation on these notes is recorded as a component of accumulated other comprehensive loss ("AOCI"), net of taxes. On occasion, forward contracts are also designated as a hedge of our net investment in our foreign subsidiaries.

In April 2019, we entered into a cross-currency swap agreement to convert our intercompany fixed-rate, Swiss franc ("CHF") denominated note, including the annual interest payment and the payment of remaining principal at maturity, to a fixed-rate Euro denominated note. The economic effect of the swap agreement was to eliminate the uncertainty of cash flows in CHF associated with the notes by fixing the principal at €202.3 with a fixed annual interest rate of 1.256%. This hedging arrangement has been designated as a cash flow hedge. The swap matures in April 2022, which matches the term of the intercompany note. Gains and losses from the hedge offsets the changes in the value of principal and interest payments as a result of changes in foreign exchange rates.

We assessed the hedging relationship at the inception of the hedge in order to determine whether the derivatives that are used in the hedging transaction are highly effective in offsetting the cash flows of the hedged item and will continue to assess the relationship on an ongoing basis. We use the hypothetical derivative method in conjunction with regression analysis using a third party valuation to measure effectiveness of our cross-currency swap agreement. The change in the fair value of the swap is deferred in AOCI in the Consolidated Statement of Operations until the hedged item impacts earnings.

The effect of our net investment hedges and cross-currency swaps on AOCI for the three and six months ended June 30, 2019, and 2018 was as follows:

Instrument	Gain (Loss) Recognized in Other Comprehensive Income		Location of Gain Reclassified from AOCI into Income	Gain Reclassified from AOCI into Income	
	3 Months Ended June 30,			3 Months Ended June 30,	
	2019	2018(1)		2019	2018(1)
Euro Notes	\$ (13.9)	\$ 47.1	Interest and other (income) expenses, net	\$ -	\$ -
Cross-currency swaps	5.0	-	Interest and other (income) expenses, net	5.4	-

Instrument	Gain Recognized in Other Comprehensive Income		Location of Gain Reclassified from AOCI into Income	Gain Reclassified from AOCI into Income	
	6 Months Ended June 30,			6 Months Ended June 30,	
	2019	2018(1)		2019	2018(1)
Euro Notes	\$ 8.5	\$ 25.9	Interest and other (income) expenses, net	\$ -	\$ -
Cross-currency swaps	5.0	-	Interest and other (income) expenses, net	5.4	-

(1) The prior period amounts have been revised to conform with the current period presentation.

We expect the net amount of pre-tax derivative gains and losses included in AOCI at June 30, 2019 to be reclassified into earnings within the next twelve months will not be significant. The actual amount that will be reclassified to earnings over the next twelve months will vary due to future currency exchange rates.

For our forward contracts that are not designated as hedges, any gain or loss resulting from the change in fair value is recognized in the current period earnings. These gains or losses are offset by the exposure related to receivables and payables with our foreign subsidiaries and to interest due on our Euro-denominated notes, which is paid annually in June and September. The effect of our forward contracts that are not designated as hedging instruments on the Consolidated Statements of Operations for the three and six months ended June 30 was as follows:

Instrument	Location of Gain Recognized in Income	Amount of Gain Recognized in Income			
		3 Months Ended June 30,		6 Months Ended June 30,	
		2019	2018	2019	2018
Foreign currency forward contracts	Interest and other (income) expenses, net	\$ 9.1	\$ 2.1	\$ 9.2	\$ 2.1

The following tables present the fair value of derivative and non-derivative assets and liabilities on the Consolidated Balance Sheets as of June 30, 2019 and December 31, 2018:

	Assets		
	Balance Sheet Location	June 30, 2019	December 31, 2018
Instruments designated as hedges:			
Cross-currency swaps	Prepaid expenses and other assets	\$ 5.1	\$ -
Instruments not designated as hedges:			
Foreign currency forward contracts	Accounts receivable, net	9.2	0.1
Total instruments		\$ 14.3	\$ 0.1

	Liabilities		
	Balance Sheet Location	June 30, 2019	December 31, 2018
Instruments designated as hedges:			
Euro Notes	Long-term debt	1,083.5	1,032.0
Instruments not designated as hedges:			
Foreign currency forward contracts	Accrued liabilities	—	0.1
Total instruments		\$ 1,083.5	\$ 1,032.1

Fair Value Measurements

The carrying value of long-term debt approximates fair value, except for the Euro-denominated notes. The fair value of the Euro-denominated notes, as observable at commonly quoted intervals (Level 2 inputs), was \$1,083.5 and \$1,052.9 as of June 30, 2019 and December 31, 2018, respectively, compared to a carrying value of \$1,016.7 and \$1,024.6, respectively.

Our deferred compensation plan assets were \$101.6 and \$89.5 as of June 30, 2019 and December 31, 2018 respectively. We determine the fair value of these assets, comprised of publicly traded securities, by using market quotes as of the last day of the period (Level 1 inputs).

We measure the fair value of the foreign currency forward contracts and cross-currency swaps at the value based on either directly or indirectly observable inputs from third parties (Level 2 inputs).

(14) Leases

We have operating leases for real estate, vehicles, and equipment. Our leases have remaining lease terms of 1 month to 12 years. Our lease agreements may include renewal or termination options for varying periods that are generally at our discretion. In our lease term, we only include those periods related to renewal options we are reasonably certain to exercise. However, we generally do not include these renewal options as we are not reasonably certain to renew at the lease commencement date. This determination is based on our consideration of certain economic, strategic and other factors that we evaluate at lease commencement date and reevaluate throughout the lease term. Some leases also include options to terminate the leases and we only include those periods beyond the termination date if we are reasonably certain not to exercise the termination option.

Some leasing arrangements require variable payments that are dependent on usage or may vary for other reasons, such as payments for insurance and tax payments. The variable portion of lease payments is not included in our ROU assets or lease liabilities. Rather, variable payments, other than those dependent upon an index or rate, are expensed when the obligation for those payments is incurred and are included in lease expenses recorded in selling and administrative expenses on the Consolidated Statements of Operations.

We have lease agreements with both lease and non-lease components that are treated as a single lease component for all underlying asset classes. Accordingly, all expenses associated with a lease contract are accounted for as lease expenses.

We have elected to apply the short-term lease exception for all underlying asset classes. That is, leases with a term of 12 months or less are not recognized on the balance sheet, but rather expensed on a straight-line basis over the lease term. We do not include significant restrictions or covenants in our lease agreements, and residual value guarantees are generally not included within our operating leases. As of June 30, 2019, we did not have any material additional operating leases that have not yet commenced.

The components of lease expense were as follows:

	3 Months Ended June 30, 2019	6 Months Ended June 30, 2019
Operating lease expense	\$ 35.0	\$ 69.7
Short-term lease expense	6.0	12.1
Other lease expense ⁽¹⁾	\$ 4.8	\$ 9.9
Total lease expense	<u>\$ 45.8</u>	<u>\$ 91.7</u>

(1) Other lease expense includes immaterial variable lease expense and sublease income.

Other information related to leases was as follows:

	6 Months Ended June 30, 2019
Supplemental Cash Flows Information	
Cash paid for amounts included in the measurement of operating lease liabilities	\$ 64.8
Operating ROU assets obtained in exchange for lease obligations	\$ 69.7

	June 30, 2019
Supplemental balance sheet information	
Operating Leases	
Operating lease ROU assets	\$ 458.5
Operating lease liabilities - current ⁽¹⁾	\$ 126.6
Operating lease liabilities - long-term	334.3
Total operating lease liabilities	<u>\$ 460.9</u>

(1) Operating lease liabilities - current are included in accrued expenses on our Consolidated Balance Sheets.

Weighted Average Remaining Lease Term	
Operating leases	5.6
Weighted Average Discount Rate	
Operating leases	2.8%

Maturities of operating lease liabilities as of June 30, 2019 were as follows:

(In millions)		Operating Leases
Period Ending June 30, 2019		
2019 (excluding the six months ended June 30, 2019)	\$	64.5
2020		120.9
2021		91.8
2022		68.1
2023		46.2
2024		33.7
Thereafter		80.5
Total future undiscounted lease payments	\$	505.7

Total operating lease liabilities	<u>\$</u>	<u>460.9</u>

Maturities of operating leases accounted for under ASC 840 as of December 31, 2018 were as follows:

(In millions)		Operating Leases
Period Ending December 31, 2018		
2019	\$	151.4
2020		115.2
2021		85.5
2022		65.0
2023		44.1
Thereafter		105.6
Total minimum lease payments	<u>\$</u>	<u>566.8</u>

(15) Segment Data

We are organized and managed primarily on a geographic basis, with Right Management currently operating as a separate global business unit. Each country and business unit generally has its own distinct operations and management team, providing services under our global brands, and maintains its own financial reports. We have an executive sponsor for each global brand who is responsible for ensuring the integrity and consistency of delivery locally. Each operation reports directly or indirectly through a regional manager, to a member of executive management. Given this reporting structure, we operate using the following reporting segments: Americas, which includes United States and Other Americas; Southern Europe, which includes France, Italy and Other Southern Europe; Northern Europe; APME; and Right Management.

The Americas, Southern Europe, Northern Europe and APME segments derive a significant majority of their revenues from our staffing and interim services. The remaining revenues within these segments are derived from our outcome-based solutions and consulting services, permanent recruitment services and other services. The Right Management segment revenues are derived from outplacement and talent management services. Segment revenues represent sales to external clients. We provide services to a wide variety of clients, none of which individually comprise a significant portion of revenues for us as a whole. Due to the nature of our business, we generally do not have export sales.

- (a) In the United States, revenues from services included fees received from the related franchise offices of \$3.7 and \$3.9 for the three months ended June 30, 2019 and 2018, and \$7.3 and \$7.1 for the six months ended June 30, 2019 and June 30, 2018, respectively. These fees are primarily based on revenues generated by the franchise offices, which were \$154.3 and \$166.7 for the three months ended three months ended June 30, 2019 and 2018, respectively, and \$311.2 and \$315.7 six months ended June 30, 2019 and June 30, 2018 respectively.
- (b) Our consolidated revenues from services include fees received from our franchise offices of \$4.1 and \$6.2 for the three months ended three months ended June 30, 2019 and 2018, respectively, and \$9.7 and \$11.4 for the six months ended June 30, 2019 and June 30, 2018, respectively. These fees are primarily based on revenues generated by the franchise offices, which were \$163.2 and \$273.9 for the three months ended June 30, 2019 and 2018, respectively, and \$406.2 and \$510.7 for the six months ended June 30, 2019 and June 30, 2018, respectively.
- (c) We evaluate segment performance based on operating unit profit (“OUP”), which is equal to segment revenues less cost of services and branch and national headquarters operating costs. This profit measure does not include goodwill and intangible asset impairment charges or amortization of intangibles related to acquisitions, corporate expenses, interest and other income and expense amounts or income taxes.

(16) Contingencies

Litigation

On April 26, 2017, the sellers of 7S, a company we acquired in 2015, formally disputed the contingent consideration related to the acquisition, claiming that they were owed an additional \$23.7 (€20.8), plus interest. The dispute was submitted to an arbitration tribunal in Germany. On June 28, 2019, the arbitration forum handed down its decision, rejecting the claims brought by the 7S sellers. Finding in favor of ManpowerGroup, the arbitration tribunal confirmed that no further amounts are owed by us, and also awarded us reimbursement of legal fees and other costs.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

See the financial measures section on pages 33 and 34 for further information on the Non-GAAP financial measures of constant currency and organic constant currency.

Business Overview

Client demand for workforce solutions and services is dependent on the overall strength of the labor market and secular trends toward greater workforce flexibility within each of the segments where we operate. Improving economic growth typically results in increasing demand for labor, resulting in greater demand for our staffing services while demand for our outplacement services typically declines. During periods of increasing demand, we are generally able to improve our profitability and operating leverage as our cost base can support some increase in business without a similar increase in selling and administrative expenses. By contrast, during periods of decreased demand, as we experienced in both the second quarter of 2019 and first half of 2019, our operating profit is generally impacted unfavorably as we experience a deleveraging of selling and administrative expenses which may not decline at the same pace as revenues. We continued to see significant variation across global labor markets during the second quarter, which is reflected in our results and evidenced by our most recent surveys, which show hiring intentions strengthening in about half of the countries we surveyed, and weakening in about half of the countries, with considerable uncertainty and unpredictability in our European markets being impacted by concerns over trade wars and Brexit.

During the second quarter of 2019, the United States dollar was stronger, on average, relative to the currencies in all of our markets than in the second quarter of 2018, having an unfavorable impact on our reported results. This strengthening was particularly pronounced against the Euro and British Pound. Our reported revenues from services decreased 5.0% in the second quarter of 2019 compared to the second quarter of 2018 and our reported operating profit decreased 37.2%. These results were partly impacted by the relative weakness of other currencies against the United States dollar compared to the same period in 2018, and generally may understate the performance of our underlying business. The changes in the foreign currency exchange rates had a 4.9% unfavorable impact on revenues from services, a 4.0% unfavorable impact on operating profit, and an approximately \$0.08 per share unfavorable impact on net earnings per share – diluted in the quarter. Substantially all of our subsidiaries derive revenues from services and incur expenses within the same currency and generally do not have cross-currency transactions, and therefore, changes in foreign currency exchange rates primarily impact reported earnings and not our actual cash flow unless earnings are repatriated. To understand the performance of our underlying business, we utilize constant currency or organic constant currency variances for our consolidated and segment results.

During the three months ended June 30, 2019, our businesses did not experience significant changes in revenue trends from the previous quarter. The environment continued to be one of revenue declines in most of our markets, with sluggish trends in Europe overshadowing modest constant currency growth elsewhere. Our consolidated revenues were down 0.1% in constant currency in the quarter, an improvement from the 2.2% constant currency decline in the first quarter of 2019 due primarily to the additional revenues from the acquisition in April 2019 of the remaining controlling interest in our Swiss franchise (“Manpower Switzerland”). After adjusting for billing days, our organic constant currency revenue decrease was 0.6% compared to a 1.1% decrease in the first quarter of 2019. During the second quarter of 2019, several key markets within Southern and Northern Europe continued to experience revenue declines, partially offset by continued constant currency revenue increases in certain markets within the Americas and APME. We experienced a revenue decline in organic constant currency in Southern Europe due to the revenue decline in Italy, partially offset by organic constant currency revenue growth in certain markets within Other Southern Europe, while constant currency revenue in France was flat. The revenue decrease in Northern Europe was primarily due to the decrease in Germany resulting from the continued challenges posed by new regulations as well as softer demand from the manufacturing sector in that market. In the Americas, revenues increased 2.5% in constant currency due to increased demand for our staffing/interim services in certain markets within Other Americas and an increase in our ManpowerGroup Solutions business. These increases were partially offset by decrease in the United States primarily driven by a decline in demand for our staffing/interim services and the unfavorable impact of approximately one fewer billing day. In APME, revenues increased 1.3% in constant currency primarily due to an increase in our Manpower staffing revenues. As of the date of this report, we expect that the trend we saw during the first two quarters of the year will continue into the second half of the year, with European labor markets and our European results being sluggish, and improving organic constant currency results in the Americas and APME.

Our gross profit margin in the second quarter of 2019 compared to 2018 decreased due to a declining demand for services within our higher-margin ManpowerGroup Solutions Talent-Based Outsourcing business. Our staffing/interim margin was flat year-over-year as improvement from pricing initiatives in a few of our largest markets and a favorable direct cost adjustment in France was offset by declines in most of our markets within Northern Europe.

We recorded \$64.0 million of goodwill impairment charges related to our investments in Germany and New Zealand (\$60.2 million and \$3.8 million, respectively) and additional charges of \$1.6 million related to our New Zealand operations in the second quarter of 2019.

Our operating profit decreased 37.2% in the second quarter of 2019 by (-33.2% in constant currency) while our operating profit margin was down 130 basis points compared to the second quarter of 2018. Excluding the goodwill impairment and related charges incurred in the second quarter of 2019 and \$15.3 million of restructuring costs incurred in the second quarter of 2018, our operating profit was down 7.5% in constant currency while operating profit margin was down 30 basis points compared to the second quarter of 2018. We continue to monitor expenses closely to ensure we maintain the benefit of our efforts to optimize our organizational and cost structures, while investing appropriately to support the growth in the business and enhance our productivity and technology and digital capabilities.

We have made steps to reposition our portfolio of businesses. In addition to our Manpower Switzerland acquisition in April 2019 (see further information in Note 5 of our Consolidated Financial Statements), ManpowerGroup Greater China Limited completed its IPO on the Hong Kong Stock Market in July 2019, with finalization of the accounting treatment occurring in the third quarter of 2019 (see further information in Note 1 of our Consolidated Financial Statements). ManpowerGroup Greater China Limited's results were included in our consolidated results for all of the second quarter and first half of 2019.

Operating Results - Three Months Ended June 30, 2019 and 2018

The following table presents selected consolidated financial data for the three months ended June 30, 2019 as compared to 2018.

(in millions, except per share data)	2019	2018	Variance	Constant Currency Variance
Revenues from services	\$ 5,373.1	\$ 5,656.9	(5.0)%	(0.1)%
Cost of services	4,502.7	4,734.2	(4.9)%	—
Gross profit	870.4	922.7	(5.7)%	(1.1)%
Gross profit margin	16.2%	16.3%	(0.7)%	
Selling and administrative expenses, excluding goodwill impairment charge	675.6	714.4	(5.4)%	(1.0)%
Goodwill impairment charge	64.0	-	—	—
Selling and administrative expenses	739.6	714.4	3.6%	8.3%
Operating profit	130.8	208.3	(37.2)%	(33.2)%
Operating profit margin	2.4%	3.7%		
Interest and other (income) expenses, net	(70.2)	10.5		
Earnings before income taxes	201.0	197.8	1.6%	5.6%
Provision for income taxes	73.7	54.4	35.6%	
Effective income tax rate	36.7%	27.5%		
Net earnings	\$ 127.3	\$ 143.4	(11.3)%	(8.0)%
Net earnings per share – diluted	\$ 2.11	\$ 2.16	(2.3)%	0.9%
Weighted average shares – diluted	60.4	66.1	(8.8)%	

The year-over-year decrease in revenues from services of 5.0% (-0.1% in constant currency and -1.5% in organic constant currency) was attributed to:

- decreased demand for services in several of our markets within Northern Europe, where revenues decreased 15.1% (-9.6% in constant currency and -8.9% in organic constant currency), primarily due to reduced demand for our Manpower staffing services. We experienced revenue declines in Germany, the Netherlands, Belgium, the United Kingdom, and the Nordics of 30.0%, 25.8%, 11.0%, 8.1%, and 9.0% (-25.7%, -21.2%, -5.6%, -2.8%, and -1.7%, respectively, in constant currency; -17.4% in organic constant currency in the Netherlands);
- a revenue decrease in Southern Europe of 1.9% (increase of 3.7% in constant currency; -0.9% in organic constant currency). This included a revenue decrease in France of 6.1% (flat in constant currency) primarily due to the unfavorable impact of changes in currency exchange rates and a decrease in our permanent recruitment business of 5.6% (increase of 0.2% in constant currency), partially offset by an increase in our ManpowerGroup Solutions business. The

Southern Europe decrease also included a decrease in Italy of 11.1% (-5.7% in constant currency) due to decreased demand for our Manpower staffing services as a result of a challenging economic environment, partially offset by a 4.9% increase (11.1% in constant currency) in the permanent recruitment business;

- a 1.5% revenue decrease in the United States primarily driven by a decline in demand for our staffing/interim services and the unfavorable impact of approximately one fewer billing day;
- a revenue decrease in APME of 2.2% (increase of 1.3% in constant currency and 5.0% in organic constant currency) due to the impact of changes in currency exchange rates, partially offset by an increase in our Manpower staffing revenues;
- decreased demand for services at Right Management, where revenues decreased 3.9% (-0.9% in constant currency), including a 4.7% decrease (-1.7% in constant currency) in our outplacement services, as well as a 1.7% decrease (increase of 1.3% in constant currency) in our talent management business; and
- a 4.9% decrease due to the impact of changes in currency exchange rates; partially offset by
- our acquisition of Manpower Switzerland in Southern Europe in April 2019 partially offset by our dispositions of smaller businesses in Northern Europe and APME at the end of December 2018, which on a net basis added approximately 1.4% revenue growth to our consolidated results on a constant currency basis.

The year-over-year 10 basis point decrease in gross profit margin was primarily due to a declining demand for services within our higher-margin ManpowerGroup Solutions Talent Based Outsourcing business. Our staffing/interim margin was flat year-over-year as improvement from pricing initiatives in a few of our largest markets and favorable direct cost adjustment in France was offset by declines in most of our markets within Northern Europe.

The increase in selling and administrative expenses in the second quarter of 2019 (8.3% in constant currency and 7.1% in organic constant currency) was primarily attributed to:

- goodwill impairment and related charges of \$65.6 million related to our Germany reporting unit and New Zealand operations incurred in the second quarter of 2019; and
- the additional recurring selling and administrative costs of \$12.1 million incurred as a result of the acquisition of Manpower Switzerland in Southern Europe; partially offset by
- a 9.9% decrease (-6.3% in constant currency) in consulting costs related to certain technology projects, front-office centralization and back-office optimization activities incurred in the second quarter of 2018;
- a \$3.4 million decrease in the second quarter of 2019 compared to 2018 as a result of dispositions in December 2018 in Northern Europe and APME;
- a 4.7% decrease due to the impact of changes in currency exchange rates; and
- a decrease in restructuring costs with zero incurred in the second quarter of 2019 compared to \$15.3 million incurred in the second quarter of 2018.

Selling and administrative expenses as a percent of revenues increased 120 basis points in the second quarter of 2019 compared to the second quarter of 2018 due primarily to the 120 basis point unfavorable impact from the goodwill impairment and other related charges, 10 basis point unfavorable impact due to expense deleveraging as we were unable to decrease expenses, excluding the goodwill impairment and other related charges and restructuring costs, at the same rate as our revenue decline on an organic constant currency basis, and the 10 basis point unfavorable impact from changes in currency exchange rates. These items were partially offset by a 20 basis point favorable impact from the decrease in restructuring costs.

Interest and other (income) expenses, net is comprised of interest, foreign exchange gains and losses and other miscellaneous non-operating income and expenses, including noncontrolling interests. Interest and other (income) expenses, net was income of \$70.2 million in the second quarter of 2019 compared to expense of \$10.5 million in the second quarter of 2018. Net interest expense decreased \$1.8 million in the second quarter of 2019 to \$10.1 million from \$11.9 million in the second quarter of 2018 due to the lower interest rate on our €500.0 million notes offered and sold in June 2018 compared to the interest rate on the €350.0 million notes due June 22, 2018 that were repaid in June 2018. Miscellaneous income was \$79.8 million in the second quarter of 2019 compared to \$1.3 million in the second quarter of 2018. The increase in miscellaneous income was primarily due to the gain of

\$80.4 million from the acquisition of Manpower Switzerland partially offset by the decrease in the income from the equity investment in Switzerland prior to the acquisition.

We recorded income tax expense at an effective rate of 36.7% for three months ended June 30, 2019, as compared to an effective rate of 27.5% for the three months ended June 30, 2018. The 2019 rate was unfavorably impacted by the transition of the French CICE subsidy, which was non-taxable, to new French subsidies in January 2019 that are taxable, the goodwill impairment related to our investments in Germany and New Zealand, which was nondeductible, and the recognition of a valuation allowance in Germany. These items were partially offset by the favorable impact of the gain from the acquisition of Manpower Switzerland, which was non-taxable. The 36.7% effective tax rate in the quarter was higher than the United States Federal statutory rate of 21% primarily due to the French business tax, restructuring costs recorded in the quarter, our overall mix of earnings, and the recognition of a valuation allowance in Germany.

Net earnings per share - diluted was \$2.11 and \$2.17 in the second quarter of 2019 and 2018, respectively. Foreign currency exchange rates unfavorably impacted net earnings per share - diluted by approximately \$0.08 per share in the second quarter of 2019. The gain from the acquisition of Manpower Switzerland recorded in the second quarter of 2019 positively impacted net earnings per share – diluted by approximately \$1.32 per share. Goodwill impairment and related tax and other charges negatively impacted net earnings per share – diluted by approximately \$1.26. Restructuring costs recorded in the second quarter of 2018 negatively impacted net earnings per share - diluted by approximately \$0.18 per share, net of tax, in the second quarter of 2018.

Weighted average shares - diluted decreased to 60.4 million in the second quarter of 2019 from 66.1 million in the second quarter of 2018. This decrease was due to the impact of share repurchases completed since the second quarter of 2018, partially offset by shares issued as a result of exercises and vesting of share-based awards since the second quarter of 2018.

Operating Results - Six Months Ended June 30, 2019 and 2018

The following table presents selected consolidated financial data for the six months ended June 30, 2019 as compared to 2018.

(in millions, except per share data)	2019	2018	Variance	Constant Currency Variance
Revenues from services	\$ 10,418.0	\$ 11,179.3	(6.8)%	(1.1)%
Cost of services	8,742.8	9,371.2	(6.7)%	(1.0)%
Gross profit	1,675.2	1,808.1	(7.3)%	(2.0)%
<i>Gross profit margin</i>	16.1%	16.2%		
Selling and administrative expenses, excluding goodwill impairment charge	1,374.9	1,446.0	(4.9)%	0.4%
Goodwill impairment charge	64.0	-	-	-
Selling and administrative expenses	1,438.9	1,446.0	(0.5)%	5.0%
Operating profit	236.3	362.1	(34.8)%	(30.2)%
<i>Operating profit margin</i>	2.3%	3.2%		
Interest and other (income) expenses, net	(58.3)	26.6	-	
Earnings before income taxes	294.6	335.5	(12.2)%	(7.6)%
Provision for income taxes	113.8	95.1	19.8%	
<i>Effective income tax rate</i>	38.6%	28.3%		
Net earnings	\$ 180.8	\$ 240.4	(24.8)%	(21.1)%
Net earnings per share – diluted	\$ 2.98	\$ 3.62	(17.7)%	(13.5)%
Weighted average shares – diluted	60.7	66.4	(8.5)%	

The year-over-year decrease in revenues from services of 6.8% (-1.1% in constant currency and -1.5% in organic constant currency) was attributed to:

- decreased demand for services in several of our markets within Northern Europe, where revenues decreased 15.6% (9.2% in constant currency and 8.6% in organic constant currency), primarily due to reduced demand for our Manpower staffing services. We experienced revenue declines in Germany, the Netherlands, Belgium, the United Kingdom, and the Nordics of 29.5%, 26.7%, 11.5%, 9.5%, and 7.6% (-24.5%, -21.4%, -5.2%, -3.7%, and an increase of 1.1%, respectively, in constant currency; -17.7% in organic constant currency in the Netherlands);
- a revenue decrease in Southern Europe of 5.4% (increase of 1.1% in constant currency; -1.2% in organic constant currency). This included a revenue decrease in France of 7.3% (-0.7% in constant currency) primarily due to the unfavorable impact of approximately one fewer billing day. The Southern Europe decrease also included a decrease in Italy of 12.5% (-6.3% in constant currency) due to decreased demand for our Manpower staffing services as a result of a challenging economic environment, partially offset by a 6.1% increase (13.6% in constant currency) in the permanent recruitment business;
- a revenue decrease in the United States of 1.8% primarily driven by a decline in demand for our staffing/interim services and the unfavorable impact of approximately one fewer billing day;
- a revenue decrease in APME of 2.5% (increase of 1.6% in constant currency) due to the impact of changes in currency exchange rates, partially offset by an increase in our Manpower staffing revenues;
- decreased demand for services at Right Management, where revenues decreased 6.1% (-2.7% in constant currency), including a 6.0% decrease (-2.6% in constant currency) in our outplacement services, as well as a 6.8% decrease (-3.1% in constant currency) in our talent management business; and
- a 5.7% decrease due to the impact of changes in currency exchange rates; partially offset by
- our acquisition of Manpower Switzerland in Southern Europe in April 2019 partially offset by our dispositions of smaller businesses in Northern Europe and APME at the end of December 2018, which on a net basis added approximately 0.4% revenue growth to our consolidated results on a constant currency basis.

The year-over-year 10 basis point decrease in gross profit margin was primarily attributed to:

- a 20 basis point unfavorable impact from declining demand for our higher-margin ManpowerGroup Solutions services, particularly within our Talent Based Outsourcing business; partially offset by
- a 10 basis point favorable impact from changes in currency exchange rate.

The 0.5% decrease in selling and administrative expenses in the six months ended June 30, 2019 (increase of 5.0% in constant currency and 4.6% in organic constant currency) was primarily attributed to:

- a 6.8% decrease (-1.6% in constant currency; -1.9% in organic constant currency) in office-related costs primarily due to a decrease in the number of offices as a result of our delivery channel and other front-office centralization and back-office optimization activities, as well as adjusting our cost-base for the slower market environment in many of our European operations;
- a \$6.2 million decrease in the six months ended June 30, 2019 compared to 2018 as a result of dispositions in December 2018 in Northern Europe and APME; and
- a 4.5% decrease due to the impact of changes in currency exchange rates; partially offset by
- goodwill impairment and related charges of \$65.6 million related to our Germany reporting unit and New Zealand operations in the six months ended June 30, 2019;
- the additional recurring selling and administrative costs of \$12.1 million incurred as a result of the acquisition of Manpower Switzerland in Southern Europe; and
- restructuring costs of \$39.8 million incurred in the six months ended June 30, 2019 compared to \$39.3 million incurred in the six months ended June 30, 2018.

Selling and administrative expenses as a percent of revenues increased 90 basis points in the six months ended June 30, 2019 compared to the six months ended June 30, 2018 due to a 60 basis point unfavorable impact from the goodwill impairment and other related charges, 10 basis point unfavorable impact from the increase in restructuring costs, and a 10 basis point unfavorable impact from changes in currency exchange rates. The remaining 10 basis point unfavorable impact is due to expense deleveraging as we were unable to decrease expenses, excluding the goodwill impairment and other related charges and restructuring costs, at the same rate as our revenue decline on an organic constant currency basis.

Interest and other (income) expenses, net is comprised of interest, foreign exchange gains and losses and other miscellaneous non-operating income and expenses, including noncontrolling interests. Interest and other (income) expenses, net was income of \$58.3 million in the six months ended June 30, 2019 compared to expenses of \$26.6 million in the six months ended June 30, 2018. Net interest expense decreased \$5.5 million in the six months ended June 30, 2019 to \$18.8 million from \$24.3 million in the second quarter of 2018 due to the lower interest rate on our €500.0 million notes offered and sold in June 2018 compared to the interest rate on the €350.0 million notes due June 22, 2018 that were repaid in June 2018. Miscellaneous income was \$79.5 million in the six months ended June 30, 2019 compared to miscellaneous expense of \$2.5 million in the six months ended June 30, 2018. The change was primarily due to the gain of \$80.4 million from the acquisition of Manpower Switzerland and a decrease in expenses related to net earnings attributable to noncontrolling interests, partially offset by the decrease in the income from the equity investment in Switzerland prior to the acquisition.

We recorded income tax expense at the effective rate of 38.6% for the six months ended June 30, 2019, as compared to an effective rate of 28.3% for the six months ended June 30, 2018. The 38.6% effective tax rate for the six months ended June 30, 2019 was higher than the United States Federal statutory rate of 21% primarily due to the French business tax, our overall mix of earnings, and the recognition of a valuation allowance in Germany

Net earnings per share - diluted was \$2.98 and \$3.62 in the six months ended June 30, 2019 and 2018, respectively. Foreign currency exchange rates unfavorably impacted net earnings per share - diluted by approximately \$0.15 per share for the six months ended June 30, 2019. Restructuring costs recorded in the six months ended June 30, 2019 and 2018 negatively impacted net earnings per share - diluted by approximately \$0.52 and \$0.45 per share, net of tax, in the six months ended June 30, 2019 and 2018, respectively.

Weighted average shares - diluted decreased to 60.7 million in the six months ended June 30, 2019 from 66.4 million in the six months ended June 30, 2018. This decrease was due to the impact of share repurchases completed since the six months ended June 30, 2018, partially offset by shares issued as a result of exercises and vesting of share-based awards since the six months ended June 30, 2018.

Segment Operating Results

Americas

In the Americas, revenues from services decreased 0.9% (increase of 2.5% in constant currency) in the second quarter of 2019 compared to 2018. In the United States, revenues from services decreased 1.5% in the second quarter of 2019 compared to 2018, primarily driven by a decline in demand for our staffing/interim services and the unfavorable impact of approximately one fewer billing day, and a 1.3% decrease in our permanent recruitment business, partially offset by an increase in our ManpowerGroup Solutions business, primarily within our MSP offering. In Other Americas, revenues from services increased 0.1% (8.8% in constant currency) in the second quarter of 2019 compared to 2018. We experienced revenue growth in Mexico, Canada, and Peru of 3.1%, 6.0%, and 13.0%, respectively (1.7%, 9.9%, and 15.1%, respectively, in constant currency). These increases were partially offset by decreases in Argentina, Colombia and Brazil of 35.8%, 2.4% and 1.3%, respectively (increases of 21.2%, 11.3% and 7.2%, respectively, in constant currency). The constant currency increase in Argentina was primarily due to inflation. There has been a steady devaluation of the Argentine peso relative to the United States dollar in the last few years. As of July 1, 2018, the Argentina economy was designated as highly-inflationary and was treated as such for accounting purposes starting in the third quarter of 2018.

In the Americas, revenues from services decreased 1.2% (increase of 2.8% in constant currency) in the six months ended June 30, 2019 compared to 2018. In the United States, revenues from services decreased 1.8% in the six months ended June 30, 2019 compared to 2018, primarily driven by a decline in demand for our staffing/interim services and the unfavorable impact of approximately one fewer billing day, partially offset by a 1.6% increase in our permanent recruitment business and an increase in our ManpowerGroup Solutions business, primarily within our MSP offering. In Other Americas, revenues from services decreased 0.3% (increase of 9.7% in constant currency) in the six months ended June 30, 2019 compared to 2018. We experienced revenue growth in Mexico, Canada, and Peru of 3.8%, 6.8%, and 11.8%, respectively (4.3%, 11.5%, and 14.3%, respectively, in constant currency). These increases were partially offset by decreases in Argentina, Colombia and Brazil of 38.9%, 0.5% and 1.2%, respectively (increases of 18.1%, 11.3% and 11.1%, respectively, in constant currency).

Gross profit margin decreased in both the second quarter and the first half of 2019 compared to 2018 due to business mix changes within our staffing/interim business, as a larger percentage of our revenues came from our lower-margin entities within Other Americas. These decreases were partially offset by an improved staffing/interim margins in the United States, due to pricing discipline and lower payroll tax and insurance costs. The gross profit margin also decreased for the second quarter of 2019 compared to 2018 due to the decrease of 2.0% (-0.4% in constant currency) in the permanent recruitment business. The gross profit margin decrease in the first half of 2019 compared to 2018 was also partially offset by an increase of 0.4% (2.3% in constant currency) in the permanent recruitment business.

In the second quarter and first half of 2019, selling and administrative expenses increased 1.9% (4.8% in constant currency) and 3.6% (7.2% in constant currency), respectively, due primarily to an increase in salary-related expenses, as a result of higher headcount related to growth initiatives. The increase in the first half of 2019 was also due to the increase in restructuring costs to \$5.1 million from \$0.3 million in the first half of 2018.

Operating Unit Profit (“OUP”) margin in the Americas was 4.7% and 5.4% for the second quarter of 2019 and 2018, respectively. In the United States, OUP margin decreased to 5.1% in the second quarter of 2019 from 6.0% in 2018. The margin decrease in 2019 in the United States was primarily due to increased costs as a result of headcount increases for growth initiatives incurred in the second quarter of 2019 and increased costs as a result of headcount increases for growth initiatives. Other Americas OUP margin decreased to 4.2% in the second quarter of 2019 compared to 4.5% in 2018 due to increased costs as a result of headcount increases for growth initiatives.

OUP margin in the Americas was 3.9% and 4.8% for the six months ended June 30, 2019 and 2018, respectively. In the United States, OUP margin decreased to 3.9% for the six months ended June 30, 2019 compared to 5.2% in 2018. The margin decrease in 2019 in the United States was primarily due to increased costs as a result of headcount increases for growth initiatives incurred in the second quarter of 2019 and increased costs as a result of headcount increases for growth initiatives. Other Americas OUP margin decreased to 3.9% for the six months ended June 30, 2019 compared to 4.2% in 2018 primarily due to an increase in restructuring costs and increased costs as a result of headcount increases for growth initiatives.

Southern Europe

In Southern Europe, which includes operations in France and Italy, revenues from services decreased 1.9% (increase of 3.7% in constant currency; -0.9% in organic constant currency) in the second quarter of 2019 compared to 2018. In the second quarter of 2019, revenues from services decreased 6.1% (flat in constant currency) in France (which represents 59% of Southern Europe’s revenues) and decreased 11.1% (-5.7% in constant currency) in Italy (which represents 17% of Southern Europe’s revenues). The decrease in France is primarily due to the unfavorable impact of changes in currency exchange rates and a decrease in our permanent recruitment business of 5.6% (increase of 0.2% in constant currency), partially offset by an increase in our ManpowerGroup Solutions business. The decrease in Italy was due to decreased demand for our Manpower staffing services as a result of a challenging economic environment and the unfavorable impact of changes in currency exchange rates, partially offset by a 4.9% increase (11.1% in constant currency) in the permanent recruitment business. In Other Southern Europe, revenues from services increased 19.7% (25.2% in constant currency and 1.8% in organic constant currency) during the second quarter of 2019 compared to 2018, due to the additional revenue from our acquisition in April 2019 of the remaining interest in Manpower Switzerland, which represents approximately 5% of Southern Europe’s revenues, an increase in our ManpowerGroup Solutions business and an increase in our permanent recruitment business of 13.3% (19.3% in constant currency and 7.7% in organic constant currency), partially offset by the unfavorable impact of changes in currency exchange rates.

Revenues from services decreased 5.4% (increase of 1.1% in constant currency -1.2% in organic constant currency) in the six months ended June 30, 2019 compared to 2018. In the six months ended June 30, 2019, revenues from services decreased 7.3% (-0.7% in constant currency) in France and decreased 12.5% (-6.3% in constant currency) in Italy. The decrease in France is primarily due to the unfavorable impact of changes in currency exchange rates and the unfavorable impact of approximately one fewer billing day, and a decrease in our permanent recruitment business of 3.9% (increase of 3.0% in constant currency), partially offset by an increase in our ManpowerGroup Solutions business. The decrease in Italy was due to decreased demand for our Manpower staffing services as a result of a challenging economic environment and the unfavorable impact of changes in currency exchange rates, partially offset by a 6.1% increase (13.6% in constant currency) in the permanent recruitment business. In Other Southern Europe, revenues from services increased 6.8% (13.4% in constant currency and 1.6% in organic constant currency) during the six months ended June 30, 2019 compared to 2018, due to the additional revenue from our acquisition of the remaining interest in Manpower Switzerland, an increase in our ManpowerGroup Solutions business and the increase in our permanent recruitment business of 1.7% (8.9% in constant currency and 6.2% in organic constant currency), partially offset by the unfavorable impact of changes in currency exchange rates.

Gross profit margin increased in both the second quarter and first half of 2019 compared to 2018 primarily due to the increases in France’s staffing/interim margin as a result of favorable pricing actions, favorable direct cost adjustments and various initiatives to offset the unfavorable impact from transition of the CICE program to a new subsidy program. These increases were partially offset by the unfavorable impact of transition of the CICE program to a new subsidy program. The Southern Europe gross profit margins also increased due to growth in our higher-margin ManpowerGroup Solutions business and a 4.0% and 1.7%, respectively (9.9% and 8.9% in constant currency and 5.8% and 6.9% in organic constant currency, respectively) in the permanent recruitment business for the second quarter and first half of 2019 compared to 2018.

Selling and administrative expenses increased 0.1% (5.8% in constant currency and 0.3% in organic constant currency) during the second quarter of 2019 compared to 2018 due to the additional recurring costs from our acquisition of the remaining interest in Manpower Switzerland. This increase was partially offset by the decrease in restructuring costs to zero in the second quarter of 2019 from \$2.3 million in the second quarter of 2018 and the favorable impact of changes in currency exchange rates. Selling and

administrative expenses decreased 2.9% (increase of 3.9% in constant currency and 1.2% in organic constant currency) in the six months ended June 30, 2019 compared to 2018, due to the favorable impact of changes in currency exchange rates, partially offset by the additional recurring costs from our acquisition of the remaining interest in Manpower Switzerland and an increase in salary-related expenses, as a result of higher headcount.

OUP margin in Southern Europe was 5.2% for second quarter of 2019 compared to 5.0% for 2018. In France, the OUP margin increased to 5.3% for the second quarter of 2019 from 4.8% in 2018, primarily due to the improvement in the gross profit margin. In Italy, the OUP margin increased to 7.6% for the second quarter of 2019 from 7.2% for 2018, primarily due to improvement in the gross profit margin. Other Southern Europe's OUP margin decreased to 3.1% for the second quarter of 2019 from 3.5% in 2018, due to a decline in the gross profit margin, partially offset by a decrease in restructuring costs.

OUP margin in Southern Europe was 4.7% in the six months ended June 30, 2019 compared to 4.6% for 2018. In France, the OUP margin increased to 4.8% in the six months ended June 30, 2019 compared to 4.5% in 2018, primarily due to the improvement in the gross profit margin, partially offset by an increase in salary-related expenses. In Italy, the OUP margin was flat at 6.7% in the six months ended June 30, 2019 and 2018, as the improvement in the gross profit margin was offset by an increase in restructuring costs. Other Southern Europe's OUP margin decreased to 2.8% in the six months ended June 30, 2019 compared to 3.3% in 2018, due to a decline in the gross profit margin, partially offset by a decrease in restructuring costs.

Northern Europe

In Northern Europe, which includes operations in the United Kingdom, Germany, the Nordics, the Netherlands and Belgium (comprising 33%, 17%, 22%, 12%, and 8%, respectively, of Northern Europe's revenues), revenues from services decreased 15.1% (-9.6% in constant currency and -8.9% in organic constant currency) in the second quarter of 2019 compared to 2018. We experienced revenue declines in the United Kingdom, Germany, the Nordics, the Netherlands and Belgium of 8.1%, 30.0%, 9.0%, 25.8% and 11.0% (-2.8%, -25.7%, -1.7%, -21.2% and -5.6%, respectively, in constant currency; -17.4% in organic constant currency in the Netherlands). The Northern Europe revenue decrease is primarily due to reduced demand for our Manpower staffing services, primarily because of the decrease in Germany resulting from lower production activity in the manufacturing sector in that market, reduced demand in the Netherlands, and the unfavorable impact of approximately one fewer billing day. This decrease was also due to a decrease in our ManpowerGroup Solutions business from the disposition of our language translation business in the Netherlands at the end of December 2018 and the 14.4% decrease (-8.8% in constant currency) in the permanent recruitment business. These decreases were partially offset an increased demand for our staffing/interim services in Norway.

Revenues from services decreased 15.6% (9.2% in constant currency and 8.6% in organic constant currency) in the six months ended June 30, 2019 compared to 2018. We experienced revenue declines in the United Kingdom, Germany, the Nordics, the Netherlands and Belgium of 9.5%, 29.5%, 7.6%, 26.7% and 11.5% (-3.7%, -24.5%, increase of 1.1%, -21.4% and -5.2%, respectively, in constant currency; -17.7% in organic constant currency in the Netherlands). The Northern Europe revenue decrease is primarily due to reduced demand for our Manpower staffing services, primarily because of the decrease in Germany resulting from lower production activity in the manufacturing sector in that market, decrease in the UK due to reduced production from one of our automotive clients, reduced demand in the Netherlands, and the unfavorable impact of approximately one fewer billing day. This decrease was also due to a decrease in our ManpowerGroup Solutions business from the disposition of our language translation business in the Netherlands at the end of December 2018 and the 14.4% decrease (-7.9% in constant currency) in the permanent recruitment business. These decreases were partially offset an increased demand for our staffing/interim services in Norway as well as a constant currency increase in our Experis interim business primarily within the IT sector in the United Kingdom.

Gross profit margin decreased in both the second quarter and first half of 2019 compared to 2018 due to the decline in our staffing/interim margin, primarily as a result of business mix changes, lower associate utilization and higher vacation and sickness rates in Germany, and the decrease in our permanent recruitment business.

Selling and administrative expenses decreased 21.8% (-16.7% in constant currency and -15.9% in organic constant currency) in the second quarter of 2019 compared to 2018. Selling and administrative expenses decreased 17.9% (-11.6% in constant currency and -10.9% in organic constant currency) in the six months ended June 30, 2019 compared to 2018. The decreases were primarily due to the decreases in salary-related expenses as a result of a reduction in headcount, a decrease in office-related expenses driven by a decrease in the number of offices, and a decrease in consulting costs related to certain technology projects, front-office centralization and back-office optimization activities incurred in the second quarter of 2018. The decreases are also due to the decreases of restructuring costs to zero and \$18.7 million, respectively, in the second quarter and first half of 2019 from \$13.2

million and \$33.3 million, respectively, in the second quarter and first half of 2018. The 2019 restructuring costs related to delivery model and other front-office centralization activities as well as back-office optimization activities primarily in Germany, the Netherlands, Sweden, and Belgium.

OUP margin for Northern Europe for the second quarter of 2019 increased to 2.0% compared to 1.8% in 2018 due to the decrease in restructuring costs, partially offset by a decrease in the gross profit margin. OUP margin decreased to 1.0% in the six months ended June 30, 2019 from 1.5% in 2018 due to the decrease in the gross profit margin, partially offset for the decrease in restructuring costs

APME

Revenues from services decreased 2.2% (increase of 1.3% in constant currency and 5.0% in organic constant currency) in the second quarter of 2019 compared to 2018. In Japan (which represents 33% of APME's revenues), revenues from services increased 4.2% (4.9% in constant currency) due to the increased demand for our staffing/interim services, increase in our ManpowerGroup Solutions business, and a 0.5% increase (1.5% in constant currency) in our permanent recruitment business, partially offset by the unfavorable impact of three fewer billing days in the quarter. In Australia (which represents 16% of APME's revenues), revenues from services decreased 21.9% (-15.6% in constant currency) as we chose to exit certain low-margin business to improve profitability, and due to the 5.5% decrease (increase of 2.1% in constant currency) in our permanent recruitment business. The revenue increase in the remaining markets in APME is due to increased demand for Manpower staffing services, mostly in India, Greater China, Thailand, and Singapore, increase in our ManpowerGroup Solutions business, partially offset by the disposition of a low-margin business in Greater China at the end of December 2018. ManpowerGroup Greater China Limited completed its IPO on the Hong Kong Stock Market in July 2019, with finalization of the accounting treatment occurring in the third quarter of 2019 (see further information in Note 1). ManpowerGroup Greater China Limited's results were included in our consolidated results for all of the second quarter and first half of 2019.

Revenues from services decreased 2.5% (increase of 1.6% in constant currency and 5.5% in organic constant currency) in the six months ended June 30, 2019 compared to 2018. In Japan, revenues from services increased 2.5% (3.8% in constant currency) due to the increased demand for our staffing/interim services, increase in our ManpowerGroup Solutions business, and a 5.3% increase (6.8% in constant currency) in our permanent recruitment business, partially offset by the unfavorable impact of four fewer billing days in the first half of 2019 compared to 2018. In Australia, revenues from services decreased 17.6% (-10.0% in constant currency) as we chose to exit certain low-margin business to improve profitability, and due to the 9.6% decrease (-1.2% in constant currency) in our permanent recruitment business. The revenue increase in the remaining markets in APME is due to increased demand for Manpower staffing services, mostly in India, Greater China, Thailand, and Singapore, and an increase in our ManpowerGroup Solutions business, partially offset by the disposition of a low-margin business in Greater China at the end of December 2018.

Gross profit margin increased in both the second quarter and first half of 2019 compared to 2018 as the increases in our staffing/interim margins due to the Greater China business disposition in 2018 was offset by the decreases in our permanent recruitment business of 5.4% and 7.4%, respectively (flat and -1.4% in constant currency, respectively).

Selling and administrative expenses decreased 0.3% (increase of 3.8% in constant currency and 5.6% in organic constant currency) in the second quarter of 2019 compared to 2018 due primarily to the favorable impact of changes in currency exchange rates and the decrease in selling and administrative expenses as a result of the disposition of a business unit in Greater China in December 2018, partially offset by an increase in costs to support an increase in revenues in certain markets. Selling and administrative expenses increased 1.2% (6.0% in constant currency and 7.9% in organic constant currency) in the first half of 2019 compared to 2018 due to an increase in restructuring costs to \$4.4 million, incurred in Australia and New Zealand, in the first half of 2019 compared to no restructuring costs incurred in the first half of 2018, and an increase in costs to support an increase in revenues in certain markets. These increases were partially offset by a decrease in selling and administrative expenses as a result of the business unit disposition in Greater China in 2018 and the favorable impact of changes in currency exchange rates.

OUP margin for APME decreased to 4.0% in the second quarter of 2019 from 4.1% in 2018 due to expense deleveraging, as were unable to reduce costs at the same rate as the revenue decline, partially offset by the improvement in the gross profit margin. OUP margin decreased to 3.4% in the six months ended June 30, 2019 from 3.8% in 2018 due to the increase in restructuring costs, partially offset by the improvement in the gross profit margin.

Right Management

Revenues from services decreased 3.9% (-0.9% in constant currency) in the second quarter of 2019 compared to 2018. The decrease is primarily due to the 4.7% decrease (-1.7% in constant currency) in our outplacement services as we experienced softer demand in our Americas and European markets. Our talent management business decreased 1.7% (increase of 1.3% in constant currency) in the second quarter of 2019 compared to 2018 due primarily to the unfavorable impact of changes in currency exchange rates, partially offset by increased demand in our Americas and European markets.

Revenues from services decreased 6.1% (-2.7% in constant currency) in the six months ended June 30, 2019 compared to 2018. The decrease is primarily due to the 6.0% decrease (-2.6% in constant currency) in our outplacement services as we experienced softer demand in our Americas and European markets. Our talent management business decreased 6.8% (-3.1% in constant currency) in the six months ended June 30, 2019 compared to 2018 due mostly to softening demand in our European and Asia markets and the unfavorable impact of changes in currency exchange rates.

Gross profit margin decreased in both the second quarter and first half of 2019 compared to 2018 due to the decrease in both our outplacement and talent management businesses gross profit margins. The decrease in the second quarter 2019 compared to 2018 is also due to the change in business mix as the higher-margin outplacement business represented a lower percentage of the revenues mix.

Selling and administrative expenses decreased 5.2% (-2.2% in constant currency) in the second quarter of 2019 compared to 2018 primarily due to the decrease in office-related expenses related to a decrease in the number of offices. Selling and administrative expenses increased 0.6% (4.0% in constant currency) in the six months ended June 30, 2019 compared to 2018 due to the increase in restructuring costs to \$4.7 million in the second quarter of 2019 from \$0.5 million in the six months ended June 30, 2018, partially offset by a decrease in salary-related expenses as a result of a reduction in headcount and a decrease in office-related expenses related to a decrease in the number of offices.

OUP margin for Right Management decreased to 17.9% in the second quarter of 2019 from 19.9% in 2018 due to the decline in the gross profit margin. OUP margin decreased to 11.5% in the first half of 2019 from 16.5% in the first half of 2018 due to the increase in restructuring costs and the decline in the gross profit margin.

Financial Measures

Constant Currency and Organic Constant Currency Reconciliation

Changes in our financial results include the impact of changes in foreign currency exchange rates, acquisitions, and dispositions. We provide “constant currency” and “organic constant currency” calculations in this report to remove the impact of these items. We express year-over-year variances that are calculated in constant currency and organic constant currency as a percentage.

When we use the term “constant currency,” it means that we have translated financial data for a period into United States dollars using the same foreign currency exchange rates that we used to translate financial data for the previous period. We believe that this calculation is a useful measure, indicating the actual growth of our operations. We use constant currency results in our analysis of subsidiary or segment performance. We also use constant currency when analyzing our performance against that of our competitors. Substantially all of our subsidiaries derive revenues and incur expenses within a single country and, consequently, do not generally incur currency risks in connection with the conduct of their normal business operations. Changes in foreign currency exchange rates primarily impact reported earnings and not our actual cash flow unless earnings are repatriated.

When we use the term “organic constant currency,” it means that we have further removed the impact of acquisitions in the current period and dispositions from the prior period from our constant currency calculation. We believe that this calculation is useful because it allows us to show the actual growth of our ongoing business.

The constant currency and organic constant currency financial measures are used to supplement those measures that are in accordance with United States Generally Accepted Accounting Principles (“GAAP”). These Non-GAAP financial measures may not provide information that is directly comparable to that provided by other companies in our industry, as other companies may calculate such financial results differently. These Non-GAAP financial measures are not measurements of financial performance under GAAP, and should not be considered as alternatives to measures presented in accordance with GAAP.

Constant currency and organic constant currency percent variances, along with a reconciliation of these amounts to certain of our reported results, are provided below:

3 Months Ended June 30, 2019 Compared to 2018

Liquidity and Capital Resources

Cash used to fund our operations is primarily generated through operating activities and provided by our existing credit facilities. We believe our available cash and existing credit facilities are sufficient to cover our cash needs for the foreseeable future. We assess and monitor our liquidity and capital resources globally. We use a global cash pooling arrangement, intercompany lending, and some local credit lines to meet funding needs and allocate our capital resources among our various entities. As of June 30, 2019, we had \$661.3 million of cash held by foreign subsidiaries. We have historically made and anticipate future cash repatriations to the United States from certain foreign subsidiaries to fund domestic operations. With the enactment of the United States Tax Cuts and Jobs Act in December 2017, we no longer recorded United States federal income taxes on unremitted earnings of non-United States subsidiaries. However, we do record deferred tax liabilities related to non-United States withholding and other taxes on unremitted earnings that are not considered permanently invested.

Cash provided by operating activities was \$277.1 million and \$175.6 million during the six months ended June 30, 2019 and 2018, respectively. Changes in operating assets and liabilities utilized \$28.0 million of cash during the six months ended June 30, 2019 compared to \$114.8 million during the six months ended June 30, 2018. These changes were primarily attributable to the timing of collections and payments and the contingent consideration of \$24.1 million paid in 2018 in excess of the original liability recorded at acquisition date. The increase was partially offset by the lower net proceeds from the sale of our CICE payroll tax credits, which were \$103.5 million (€92.0 million) in April 2019 compared to \$234.5 million (€190.9 million) in April 2018.

Accounts receivable increased to \$5,415.6 million as of June 30, 2019 from \$5,276.1 million as of December 31, 2018. This increase is primarily due to the timing of collections. Days Sales Outstanding ("DSO") remained unchanged between June 30, 2019 and December 31, 2018.

Capital expenditures were \$24.0 million for the six months ended June 30, 2019 compared to \$26.8 million for the six months ended June 30, 2018. These expenditures were primarily comprised of purchases of computer equipment, office furniture and other costs related to office openings and refurbishments, as well as capitalized software costs. The higher expenditures in 2018 compared to 2019 was primarily due to additional technology investment and the timing of capital expenditures.

On April 3, 2019, we acquired the remaining 51% controlling interest in our Swiss franchise ("Manpower Switzerland") to obtain full ownership of the entity. Additionally, as part of the purchase agreement we acquired the remaining 20% interest in Experis AG. Manpower Switzerland provides contingent staffing services under our Manpower brand in the four main language regions in Switzerland. Both Manpower Switzerland and Experis AG are reported in our Southern Europe segment. The aggregate cash consideration paid was \$212.7 million and was funded through cash on hand. Of the total consideration paid, \$58.3 million was for the acquired interests and the remaining \$154.4 million was for cash and cash equivalents. The amounts paid are subject to certain working capital and net debt adjustments based on the actual working capital and net debt existing on the acquisition date compared to target amounts. The acquisition of the remaining interest of Experis AG was accounted for as an equity transaction as we previously consolidated the entity.

Our investment in Manpower Switzerland prior to the acquisition was accounted for under the equity method of accounting and we recorded our share of equity income or loss in interest and other (income) expenses, net on the Consolidated Statements of Operations. The acquisition of the remaining controlling interest in Manpower Switzerland was accounted for as a business combination and the assets and liabilities of Manpower Switzerland were included in the June 30, 2019 Consolidated Balance Sheets, and the results of its operations have been included in the Consolidated Statements of Operations subsequent to the acquisition date.

The aggregate of the consideration paid and the fair value of previously held equity interest totaled \$408.3 million, or \$90.8 million net of cash acquired. In connection with the business combination, we recognized a one-time, non-cash gain on the disposition of our previously held equity interest in Manpower Switzerland of \$80.4 million, which is included within interest and other (income) expenses, net on the Consolidated Statements of Operations. Of the \$80.4 million, \$32.5 million represented the reclassification of foreign currency translation adjustments related to the previously held equity interest, from accumulated other comprehensive income.

From time to time, we acquire and invest in companies throughout the world, including franchises. The total cash consideration paid for acquisitions excluding Manpower Switzerland and Experis AG, net of cash acquired, was \$17.7 million for the six months ended June 30, 2019. This balance represents contingent consideration payments related to previous acquisitions, of which \$13.0 million had been recognized as a liability at the acquisition date. For the six months ended June 30, 2018, the total cash consideration for acquisitions, net of cash acquired, was \$47.4 million, the majority of which took place in the Netherlands. This balance includes initial acquisition payments of \$8.2 million and contingent consideration payments of \$39.2 million, of which \$15.1 million had been recognized as a liability at the acquisition date.

Cash provided by net debt borrowings was \$4.5 million in the six months ended June 30, 2019 compared to \$170.7 million in the six months ended June 30, 2018.

Our €500.0 million notes and €400.0 million notes are due June 2026 and September 2022, respectively. When the notes mature, we plan to repay the amounts with available cash, borrowings under our \$600.0 million revolving credit facility or a new borrowing. The credit terms, including interest rate and facility fees, of any replacement borrowings will be dependent upon the condition of the credit markets at that time. We currently do not anticipate any problems accessing the credit markets should we decide to replace either the €500.0 million or €400.0 million notes.

As of June 30, 2019, we had letters of credit totaling \$0.5 million issued under our \$600.0 million revolving credit facility. Additional borrowings of \$599.5 million were available to us under the facility as of June 30, 2019.

The \$600.0 million revolving credit agreement requires that we comply with a leverage ratio (Net Debt-to-Net Earnings before interest and other (income) expenses, net, provision for income taxes, intangible asset amortization expense, depreciation and amortization expense ("EBITDA")) of not greater than 3.5 to 1 and a fixed charge coverage ratio of not less than 1.5 to 1. As defined in the agreement, we had a Net Debt-to-EBITDA ratio of 0.83 to 1 and a fixed charge coverage ratio of 5.30 to 1 as of June 30, 2019. Based on our current forecast, we expect to be in compliance with our financial covenants for the next 12 months.

In addition to the previously mentioned facilities, we maintain separate bank credit lines with financial institutions to meet working capital needs of our subsidiary operations. As of June 30, 2019, such uncommitted credit lines totaled \$329.9 million, of which \$273.1 million was unused. Under the Credit Agreement, total subsidiary borrowings cannot exceed \$300.0 million in the first, second and fourth quarters, and \$600.0 million in the third quarter of each year. Due to these limitations, additional borrowings of \$243.2 million could have been made under these lines as of June 30, 2019.

On May 10, 2019 and May 4, 2018, the Board of Directors declared a semi-annual cash dividend of \$1.09 and \$1.01 per share, respectively. The 2019 dividends were paid on June 14, 2019 to shareholders of record on June 3, 2019. The 2018 dividends were paid on June 15, 2018 to shareholders of record on June 1, 2018.

In August 2019, the Board of Directors authorized the repurchase of 6.0 million shares of our common stock, with terms consistent with the previous authorizations. This authorization is in addition to the August 2018 and July 2016 Board authorizations to purchase 6.0 million shares of our common stock each. Share repurchases may be made from time to time through a variety of methods, including open market purchases, block transactions, privately negotiated transactions or similar facilities. During the first six months of 2019, we repurchased a total of 1.2 million shares at a cost of \$101.0 million under the 2018 authorization. During the first six months of 2018, we repurchased 1.0 million shares at a cost of \$113.2 million under the 2016 authorization. As of June 30, 2019, there were 1.9 million shares remaining authorized for repurchase under the 2018 authorization and no shares remaining authorized for repurchase under the 2016 authorization.

We had aggregate commitments of \$2,172.4 million as of June 30, 2019 related to debt, operating leases, severances and office closure costs, transition tax resulting from the Tax Act and certain other commitments compared to \$2,236.4 million as of December 31, 2018.

We also have entered into guarantee contracts and stand-by letters of credit totaling approximately \$211.6 million and \$190.3 million as of June 30, 2019 and December 31, 2018, respectively, which consist of \$160.3 million and \$139.0 million for guarantees, respectively, and \$51.3 million for stand-by letters of credit as of both June 30, 2019 and December 31, 2018. Guarantees primarily relate to bank accounts, operating leases and indebtedness. The letters of credit relate to workers' compensation, operating leases and indebtedness. If certain conditions were met under these arrangements, we would be required to satisfy our obligations in cash. Due to the nature of these arrangements and our historical experience, we do not expect any significant payments under these arrangements. Therefore, they have been excluded from our aggregate commitments. The cost of these guarantees and letters of credit was \$0.8 million and \$1.0 million for the six months ended June 30, 2019 and 2018, respectively.

We recorded net restructuring costs of \$41.4 million and \$39.3 million during the six months ended June 30, 2019 and 2018, respectively, in selling and administrative expenses, primarily related to severances and office closures and consolidations in multiple countries and territories. During the six months ended June 30, 2019, the costs paid, utilized or transferred out of our restructuring reserve was \$31.9 million (\$7.1 million of this amount was transferred to current operating lease liabilities). We expect a majority of the remaining \$25.0 million reserve will be paid, utilized or transferred out by the end of 2019.

See Note 2 to the Consolidated Financial Statements.

Forward-Looking Statements

Statements made in this quarterly report that are not statements of historical fact are forward-looking statements. In addition, from time to time, we and our representatives may make statements that are forward-looking. All forward-looking statements involve risks and uncertainties. The information in Item 1A. Risk Factors in our annual report on Form 10-K for the year ended December 31, 2018, which information is incorporated herein by reference, provides cautionary statements identifying, for purposes of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, important factors that could cause our actual results to differ materially from those contained in the forward-looking statements. Forward-looking statements can be identified by words such as “expect,” “anticipate,” “intend,” “plan,” “may,” “believe,” “seek,” “estimate,” and similar expressions. Some or all of the factors identified in our annual report on Form 10-K may be beyond our control. Other risks and uncertainties include, but are not limited to, the following: changes in tax legislation in places we do business; challenges in operating our business in certain European markets; failure to implement strategic technology investments; and other factors that may be disclosed from time to time in our SEC filings or otherwise. We caution that any forward-looking statement reflects only our belief at the time the statement is made. We undertake no obligation to update any forward-looking statements to reflect subsequent events or circumstances.

Item 3 – Quantitative and Qualitative Disclosures About Market Risk

Our 2018 Annual Report on Form 10-K contains certain disclosures about market risks affecting us. There have been no material changes to the information provided which would require additional disclosures as of the date of this filing.

Item 4 – Controls and Procedures

We maintain a set of disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports filed by us under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures at a reasonable assurance level pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, our Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective at the reasonable assurance level.

There have been no changes in our internal control over financial reporting identified in connection with the evaluation discussed above that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

In August 2018, the Board of Directors authorized the repurchase of 6.0 million shares of our common stock. We conduct share repurchases from time to time through a variety of methods, including open market purchases, block transactions, privately negotiated transactions or similar facilities. The following table shows the total number of shares repurchased during the second quarter of 2019.

ISSUER PURCHASES OF EQUITY SECURITIES

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plan	Maximum number of shares that may yet be purchased
April 1 - 30, 2019	23,282 (1)	\$ —	—	1,939,059
May 1 - 31, 2019	-	\$ —	—	1,939,059
June 1 - 30, 2019	199 (2)	\$ —	—	1,939,059
Total	<u>23,481</u>	\$ —	<u>1,209,734</u>	1,939,059

(1) Includes 12,598 shares of common stock withheld by ManpowerGroup to satisfy tax withholding obligations on shares acquired by an officer in settlement of performance share units and 10,684 shares withheld by ManpowerGroup to satisfy tax withholding obligations on shares acquired by certain officers in settlement restricted stock.

(2) 199 shares of common stock were withheld by ManpowerGroup to satisfy tax withholding obligations on shares acquired by an officer in settlement of restricted stock.

In August 2019, the Board of Directors authorized the repurchase of an additional 6.0 million shares of our common stock.

Item 5 – Other Information

Audit Committee Approval of Audit-Related and Non-Audit Services

The Audit Committee of our Board of Directors has approved the following audit-related and non-audit services performed or to be performed for us by our independent registered public accounting firm, Deloitte & Touche LLP and affiliates, to date in 2019:

- preparation and/or review of tax returns, including sales and use tax, excise tax, income tax, local tax, property tax, and value-added tax, consultation regarding appropriate handling of items on the United States and international tax returns;
- advice and assistance with respect to transfer pricing matters, as well as communicating with various taxing authorities regarding the requirements associated with royalties and inter-company pricing, and tax audits;
- audit services with respect to certain procedures and certifications where required; and
- other services consisting of market research to benchmark certain aspects of our business.

Item 6 – Exhibits

CERTIFICATION

I, Jonas Prising, Chief Executive Officer of ManpowerGroup Inc., certify that:

1. I have reviewed this quarterly report on Form 10-Q of ManpowerGroup Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

I, John T. McGinnis, Executive Vice President and Chief Financial Officer of ManpowerGroup Inc., certify that:

1. I have reviewed this quarterly report on Form 10-Q of ManpowerGroup Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
